YOU ARE WHAT YOU EAT.

We cordially welcome You to the Restaurant Humboldt, where naturalness is found in each and every aspect of our philosophy. To guarantee this we (only) take domestic products and resources as well as the variety of the four seasons into consideration when selecting and preparing our meals. It is in our best interest to pay our cooperating farmers, beekeepers and growers a fair price to ensure that our utilized products and ingredients come from an equitable attitude and peaceful livestock keeping. The organic origin and subtle contact with these commodities are our purpose and aspiration. We aspire to create a warm and welcoming atmosphere, to occupy ourselves intensely with our products, to come up with fresh and new ideas as well as to pay our employees a fair wage.

Our restaurant wishes to serve as a stage for a biodynamic and holistic lifestyle, which is why it is always a pleasure to meet impressive people and their products.

We wish You a peaceful and restorative break at Humboldt and kindly ask You to share Your thoughts and recommendations with us.

To Your health, enjoy Your meal.
